## Subject Index

### Adsorption

Characterization of nickel species at Ni/ $\gamma$ - $\text{Al}_2\text{O}_3$  and Ni/faujasite catalysts by carbon monoxide adsorption 87

### Adsorption

Catalytic activity of ruthenium promoted Co-Mo/ $\text{Al}_2\text{O}_3$  and infrared investigation of carbon monoxide and nitric oxide adsorption 21

### Adsorption isotherms

Xenon adsorption studies on faujasite-like zeolites: Low-temperature  $^{129}\text{Xe}$ -NMR and room temperature isotherms 75

### Alumina

Catalytic activity of ruthenium promoted Co-Mo/ $\text{Al}_2\text{O}_3$  and infrared investigation of carbon monoxide and nitric oxide adsorption 21

### Alumina carrier

Characterization of nickel species at Ni/ $\gamma$ - $\text{Al}_2\text{O}_3$  and Ni/faujasite catalysts by carbon monoxide adsorption 87

### Alumina supports

Preparation of carbon-covered alumina using fluorohydrocarbons: A new acidic support material 197

### Amorphous metals

Properties and catalytic behaviour for the Fischer-Tropsch synthesis of amorphous iron-based alloys prepared by spark-erosion 237

### Ball milling

Nanophase iron carbides as catalysts for carbon dioxide hydrogenation L9

### Benzene isopropylation

Alkylation of benzene with isopropanol over zeolite beta 53

### Bismuth selenide

Palladium based multi-component catalytic systems for the alcohol to carboxylate oxidation reaction 143

### Butanone oxidation

Selective oxidation of butan-2-one to diacetyl over vanadium pentoxide: An investigation by temporal analysis of products 183

### C<sub>1</sub> chemistry

Progress in catalytic technology in the People's Republic of China during the 1980s — a Review 1

### Carbon

Promoting effect of active carbons on methanol dehydrogenation on sodium carbonate: Hydrogen spillover 131

### Carbon

Nanophase iron carbides as catalysts for carbon dioxide hydrogenation L9

### Carbon dioxide hydrogenation

Nanophase iron carbides as catalysts for carbon dioxide hydrogenation L9

### Carbon monoxide adsorption

Characterization of nickel species at Ni/ $\gamma$ - $\text{Al}_2\text{O}_3$  and Ni/faujasite catalysts by carbon monoxide adsorption 87

### Carbon-covered alumina supports

Preparation of carbon-covered alumina using fluorohydrocarbons: A new acidic support material 197

### Catalytic technology

Progress in catalytic technology in the People's Republic of China during the 1980s — a Review 1

### CFC treatment

Novel regeneration method of Pt/KL zeolite catalyst for light naphtha reforming 255

### Cobalt

Catalytic activity of ruthenium promoted Co-Mo/ $\text{Al}_2\text{O}_3$  and infrared investigation of carbon monoxide and nitric oxide adsorption 21

### Cobaltite

Alumina-supported zinc-cobalt spinel oxide catalyst for combustion of acetone, toluene and styrene 103

### Combustion catalyst

Alumina-supported zinc-cobalt spinel oxide catalyst for combustion of acetone, toluene and styrene 103

### Coordination catalysis

Catalytic behavior of  $\text{NiSO}_4/\gamma\text{-Al}_2\text{O}_3$  for ethene dimerization L1

### Copper catalyst

Oxidation of 2-isopropyl-naphthalene to 2-isopropyl-naphthalenehydroperoxide 35

### Cumene hydrocracking

Preparation of carbon-covered alumina using fluorohydrocarbons: A new acidic support material 197

**Diacetyl**

Selective oxidation of butan-2-one to diacetyl over vanadium pentoxide: An investigation by temporal analysis of products 183

**Environment**

Progress in catalytic technology in the People's Republic of China during the 1980s — a Review 1

**Ethene dimerization**

Catalytic behavior of  $\text{NiSO}_4/\gamma\text{-Al}_2\text{O}_3$  for ethene dimerization L1

**Ether carboxylate**

Palladium based multi-component catalytic systems for the alcohol to carboxylate oxidation reaction 143

**Fischer-Tropsch synthesis**

Properties and catalytic behaviour for the Fischer-Tropsch synthesis of amorphous iron-based alloys prepared by spark-erosion 237

**Fluorohydrocarbon**

Preparation of carbon-covered alumina using fluorohydrocarbons: A new acidic support material 197

**Formaldehyde**

Promoting effect of active carbons on methanol dehydrogenation on sodium carbonate: Hydrogen spillover 131

**Fourier-transform IR**

Characterization of nickel species at  $\text{Ni}/\gamma\text{-Al}_2\text{O}_3$  and  $\text{Ni}/\text{faujasite}$  catalysts by carbon monoxide adsorption 87

**Hydrocarbons**

Properties and catalytic behaviour for the Fischer-Tropsch synthesis of amorphous iron-based alloys prepared by spark-erosion 237

**Hydrocracking**

Preparation of carbon-covered alumina using fluorohydrocarbons: A new acidic support material 197

**Hydrodesulphurization**

Catalytic activity of ruthenium promoted  $\text{Co-Mo}/\text{Al}_2\text{O}_3$  and infrared investigation of carbon monoxide and nitric oxide adsorption 21

**Hydrogenation**

Catalytic activity of ruthenium promoted  $\text{Co-Mo}/\text{Al}_2\text{O}_3$  and infrared investigation of carbon monoxide and nitric oxide adsorption 21

**Hydroxide-carbonate precursor**

Alumina-supported zinc-cobalt spinel oxide catalyst for combustion of acetone, toluene and styrene 103

**Infrared**

Catalytic activity of ruthenium promoted  $\text{Co-Mo}/\text{Al}_2\text{O}_3$  and infrared investigation of carbon monoxide and nitric oxide adsorption 21

**IR spectra**

Novel regeneration method of  $\text{Pt/KL}$  zeolite catalyst for light naphtha reforming 255

**Iron**

Properties and catalytic behaviour for the Fischer-Tropsch synthesis of amorphous iron-based alloys prepared by spark-erosion 237

**Iron**

Nanophase iron carbides as catalysts for carbon dioxide hydrogenation L9

**2-Isopropylnaphthalene oxidation**

Oxidation of 2-isopropylnaphthalene to 2-isopropylnaphthalenehydroperoxide 35

**2-Isopropylnaphthalenehydroperoxide**

Oxidation of 2-isopropylnaphthalene to 2-isopropylnaphthalenehydroperoxide 35

**Kinetics**

Oxidation of 2-isopropylnaphthalene to 2-isopropylnaphthalenehydroperoxide 35

**L zeolite**

Novel regeneration method of  $\text{Pt/KL}$  zeolite catalyst for light naphtha reforming 255

**Methanol dehydrogenation**

Promoting effect of active carbons on methanol dehydrogenation on sodium carbonate: Hydrogen spillover 131

**Molybdenum**

Catalytic activity of ruthenium promoted  $\text{Co-Mo}/\text{Al}_2\text{O}_3$  and infrared investigation of carbon monoxide and nitric oxide adsorption 21

**Nanophase carbides**

Nanophase iron carbides as catalysts for carbon dioxide hydrogenation L9

**Naphthalene hydrogenation**

Naphthalene hydrogenation reactivity of rhodium-rhenium and ruthenium-rhenium formulations dispersed on doped titania carriers 211

**Nickel**

Catalytic properties of hectorite-like smectites containing nickel 171

**Nickel clusters**

Characterization of nickel species at Ni/ $\gamma$ -Al<sub>2</sub>O<sub>3</sub> and Ni/faujasite catalysts by carbon monoxide adsorption 87

**Nickel sulphate**

Catalytic behavior of NiSO<sub>4</sub>/ $\gamma$ -Al<sub>2</sub>O<sub>3</sub> for ethene dimerization L1

**Nonionic surfactant**

Palladium based multi-component catalytic systems for the alcohol to caboxylate oxidation reaction 143

**Nuclear magnetic resonance**

Xenon adsorption studies on faujasite-like zeolites: Low-temperature <sup>129</sup>Xe-NMR and room temperature isotherms 75

**Oligomerization**

Catalytic properties of hectorite-like smectites containing nickel 171

**Oxidation**

Palladium based multi-component catalytic systems for the alcohol to caboxylate oxidation reaction 143

**Palladium**

Palladium based multi-component catalytic systems for the alcohol to caboxylate oxidation reaction 143

**Petrochemicals**

Progress in catalytic technology in the People's Republic of China during the 1980s — a Review 1

**Petroleum**

Progress in catalytic technology in the People's Republic of China during the 1980s — a Review 1

**2-Propanol decomposition**

Catalytic properties of hectorite-like smectites containing nickel 171

**n-Propylbenzene**

Alkylation of benzene with isopropanol over zeolite beta 53

**Pyrolysis**

Preparation of carbon-covered alumina using fluorohydrocarbons: A new acidic support material 197

**Radical chain reaction mechanism**

Oxidation of 2-isopropyl-naphthalene to 2-isopropyl-naphthalenehydroperoxide 35

**Refining**

Progress in catalytic technology in the People's Republic of China during the 1980s — a Review 1

**Regeneration**

Novel regeneration method of Pt/KL zeolite catalyst for light naphtha reforming 255

**Rhenium**

Naphthalene hydrogenation reactivity of rhodium-rhenium and ruthenium-rhenium formulations dispersed on doped titania carriers 211

**Rhodium**

Naphthalene hydrogenation reactivity of rhodium-rhenium and ruthenium-rhenium formulations dispersed on doped titania carriers 211

**Ruthenium**

Catalytic activity of ruthenium promoted Co-Mo/Al<sub>2</sub>O<sub>3</sub> and infrared investigation of carbon monoxide and nitric oxide adsorption 21

**Ruthenium**

Naphthalene hydrogenation reactivity of rhodium-rhenium and ruthenium-rhenium formulations dispersed on doped titania carriers 211

**Schulz-Flory**

Properties and catalytic behaviour for the Fischer-Tropsch synthesis of amorphous iron-based alloys prepared by spark-erosion 237

**Selectivity (cumene)**

Alkylation of benzene with isopropanol over zeolite beta 53

**Selectivity (diacetyl)**

Selective oxidation of butan-2-one to diacetyl over vanadium pentoxide: An investigation by temporal analysis of products 183

**Smectite**

Catalytic properties of hectorite-like smectites containing nickel 171

**Sodium carbonate**

Promoting effect of active carbons on methanol dehydrogenation on sodium carbonate: Hydrogen spillover 131

**Spark-erosion**

Properties and catalytic behaviour for the Fischer-Tropsch synthesis of amorphous iron-based alloys prepared by spark-erosion 237

**Spillover**

Promoting effect of active carbons on methanol dehydrogenation on sodium carbonate: Hydrogen spillover 131

**Synergism**

Palladium based multi-component catalytic systems for the alcohol to caboxylate oxidation reaction 143

**Synthetic smectite**

Catalytic properties of hectorite-like smectites containing nickel 171

**Tetralin**

Catalytic reactions of tetralin on H-ZSM-5 zeolite 221

**Titania**

Naphthalene hydrogenation reactivity of rhodium-rhenium and ruthenium-rhenium formulations dispersed on doped titania carriers 211

**Transition metals**

Promoting effect of active carbons on methanol dehydrogenation on sodium carbonate: Hydrogen spillover 131

**Tungsten doping**

Naphthalene hydrogenation reactivity of rhodium-rhenium and ruthenium-rhenium formulations dispersed on doped titania carriers 211

**Vanadium pentoxide**

Selective oxidation of butan-2-one to diacetyl over vanadium pentoxide: An investigation by temporal analysis of products 183

**Xenon-NMR**

Xenon adsorption studies on faujasite-like zeolites: Low-temperature  $^{129}\text{Xe}$ -NMR and room temperature isotherms 75

**Zeolite carriers**

Characterization of nickel species at Ni/ $\gamma$ - $\text{Al}_2\text{O}_3$  and Ni/faujasite catalysts by carbon monoxide adsorption 87

**Zeolite- $\beta$** 

Alkylation of benzene with isopropanol over zeolite beta 53

**Zeolite-Y**

Xenon adsorption studies on faujasite-like zeolites: Low-temperature  $^{129}\text{Xe}$ -NMR and room temperature isotherms 75

**Zeolites**

Novel regeneration method of Pt/KL zeolite catalyst for light naphtha reforming 255

**Zeolites**

Catalytic reactions of tetralin on H-ZSM-5 zeolite 221

**ZSM-20**

Xenon adsorption studies on faujasite-like zeolites: Low-temperature  $^{129}\text{Xe}$ -NMR and room temperature isotherms 75

**ZSM-5**

Catalytic reactions of tetralin on H-ZSM-5 zeolite 221
